

Who is Max 7?

L.E.D Skin Rejuvenation is here at Heavenly Escape

Max7 is a non-invasive and safe treatment designed to combat the signs of ageing and problematic skin. Max7 works on encouraging better cellular communication, encouraging your cells to work on improving dull complexions, revitalizing, toning, calming, purifying and naturally stimulating your collagen with overall rejuvenation visible for all to see. These treatments can be incorporated with any of the skin programs offered at Heavenly Escape.

Max7 is an intelligent L.E.D unit, advanced in technology using 7 patented wavelengths to directly rebalance, heal and rejuvenate your skin cells. Max's job is to rebalance your cells and have them communicating again at an optimal level, to produce amazing results that will be noticed!

Max can be used to compliment any of the skin treatments offered at Heavenly Escape in a course or as a stand alone skin programme.

THE BENEFITS

Each of the seven coloured wavelengths of the visible light spectrum is associated with specific properties.

- Red** anti ageing, stimulates collagen production hence reduces fine lines and wrinkles, rejuvenating, increases blood flow, anti-inflammatory
- Orange** eliminates dull complexions, revitalizing, energizing, aids in cellular nutrition, leaving the skin with a healthy glow
- Yellow** toning and tightening of muscles, stimulant for the sensory motor nervous systems, detoxifying
- Green** anti-inflammatory, calming and soothing effect, recommended for capillaries and Rosacea, traumatized skin and for fading of pigmentation and skin discolorations
- Aqua** increase cellular activity by aiding better use of oxygen, great for mature skin lacking elasticity
- Blue** antispasmodic properties, relaxes muscles, lines and wrinkles and promotes cellular communication
- Violet** purifying, antibacterial, especially for acne, problematic and oily skin

Prior to any treatments you will receive a full skin consultation to determine a suitable program to deliver the results you deserve.
